version 2

Clémence Prosen is a French-born Irish artist, a Surface Pattern Designer and a Calm-Life advocate. She is self-taught. She paints mostly in oil and watercolour, inspired by the calming beauty of nature and the simple things of life.

She has worked for 15 years in corporate, using her creative skills in product development. She found creating art as a way to relax and unstress after a day working in toxic environments. After moving to Ireland, her art developed quickly, inspired by the soothing Irish landscapes and the supportive art culture. She first developed her artistic practice, in parallel with her job, and connected locally with artists and organizations to show her art online and offline. She exhibited her work at the Skerries Mills in 2019 and 2020. Then, she exhibited at the Signal Art Open 2019, Culture Night Samelah – Le Cheile 2021, at the Red Stables and Art Source. As of 2021, she is a full-time artist.

Clémence wishes to inspire you and people all over the world to live a calmer and balanced life. She advocates well-being and mental health by creating meaningful art through different connected media.
